Dr. Schencks
Mandrake Pills!

Professor John King of the College of medicine, in Cincinnati, says: In constipation, Mandrake acts upon the bowels without disposing them to subsequent costiveness. In chronic Liver complaint there is not its equal in the whole range of medicines, being vastly more useful than mercurial agents, arousing the liver to healthy action, increasing the flow of bile, and keeping up these actions longer than any other agent with which we are acquainted., (See American Dispensatory, page 720.)

### THE RAILWAY EXTENSIONS.

There can be no hesitation in pronouncing the works, North and South of the Central Argentine Railway, as a great National necessity, one that should be paramount over every other national question that we know of at present. The country is at peace, no outside nor inside enemies to disturb its tranquillity, and we consequently want no more ironclads; neither do we require more armament or men for our standing army. In fact our military expenditure might safely be diminished. There are no extra demands on the public purse except those that the new Capital may require for government buildings. There is nothing then to divert the attention of the National Cabinet from the one great work that will be the coping stone to the structure of National progress, the connection of all the Provinces by means of the iron rail. No consideration of cost should influence the Government in this great question of consolidating National interests. The extension to Jujuy and the branches to Santiago del Estero, Rioja and Catamarca, may not pay much interest on the investment for some years, but they will increase the income of the Cordoba and Tucuman line, while on the other hand the extensions to Mendoza and San Juan will probably pay 5 o/o from the onset. But this should be of secondary import. The Northern railway will give vitality to a large region of Argentine territory, wealthy in valuable products, now scarcely known in the civilized parts of the Republic. Neither should we lose sight of the important question of securing the trade of Southern Bolivia.

As to the means of rapidly finishing these great and indispensable works, we will say that the Argentine Republic has risen into the enviable position of being enabled to subordinate means to will; that is to say, that means can always be found to carry out any project that is not really extravagantly exaggerated in itself. Now, there is nothing that approaches extravagance in the expenditure of twenty five or thirty millions on the construction of necessary means of communication throughout the country, or engaging a million a year to pay a 6 per cent guarantee, should the Government or Congress decline to negociate more loans, which we ourselves would certainly think their wisest course, not because we believe the National Debt is by any means large in relation to the wealth of the Nation, but because large sums of ready money in the hands of Governments are very liable to be squandered, as witness Mr Sarmiento's wars in Entre Rios.

As we are of the opinion that the loan of twelve millions, which only produced nine, and which was for the purpose of enabling the Government themselves to construct the works, was an error, we should not be logical did we not oppose any further loan for the same purpose. And yet when the bottom of the money bag shall be visible, we shall see the termini of the two lines planted in the Pampa half or a third of the way to their real destination. The roads must be made. This is the universal cry of the country. For this money must be found; and we are convinced that the very best thing the Government can do is to return to the guarantee system. We believe that a six per cent guarantee will attract proposals, particularly if the Government makes certain concessions for the use of the Tucuman line. We do not speak of such complicated pitafull proposals as that which was lately presented to the Government, which ought to have been despatched from the office of the Minister with a 'no hay lugar.' Let the Government make up their mind and call for bids in and out of the country, offering the guarantee, and whatever other legitimate concession they may think proper, one of which should be the renouncement for twenty years of the privilege of expropriation, and we shall have good men like Mr. Wheelright, for instance, coming forward to build the road; and the country will not have cause to hang the head with shame as in the case when the Cordoba-Tucuman line is spoken of.

Should this be done, and a Company be formed for the purpose, who would reimburse the Government what they have already expended, the latter might conclude the Andine extension to San Juan and Mendoza with their own funds, and be owners of a fine broad gauge line from Villa Maria to the Andes, the first section of which, however, between Villa Maria and Villa Mercedes, will have been made comparatively worthless by the competition line from the Western Railway to Villa Mercedes.

### MONTEVIDEO

VOLPI AND PASO HONDO.

SERIOUS STATE OF THINGS.

On Friday morning the Courts issued warrants for the arrest of the ex-Minister of War, Dr Vilaza, the ex-Chief of Police, Sr Barreto, Don Diego Perez, and two others, for complicity in the torture of Volpi and Patroni. The step was expected, as it was one of the conditions imposed by the Italian Minister. Another tortured victim has turned up—a shoemaker, in whose house Volpi used to lodge.

The Paso Hondo affair has now partly ousted Volpi and Patroni from the public mind, and what Brazil will do is the question. Some people are so excited that they expect a General Smash all round the compass. The atrocities at Paso Hondo and Corrales beat Bulgaria hollow. Two of the victims are now safe in the Brazilian Legation and have made the most appalling revelations.

The British Minister, the Hon. E Monson, had a long conference on Friday with the Minister of Foreign Affairs, but nothing of what passed has transpired. The Paso Hondo horror is now considered more serious than the Volpi, which is in a fair way to a peaceable arrangement. Vilaza published a letter in the *Tribuna*, exculpating himself, but the public dont believe him, and hold every member of the Government, from Santos down, as morally responsible.

The worst feature in the situation now is the news given 'positively' by the Government's own organ, the *Opinion Nacional*, to effect that orders have been given to mobilize 3500 men in Tacuarembo, Cerro Largo, Salto and Rocha, and that eight large guns will be placed on the Cerro. The Government has 4000 men fully equipped and with the best modern arms, ready to take the field at a moment's notice, and there are 5000 Remingtons, 4000 carbines and 5 million cartridges in the Arsenals for the National Guard. The artillery of the Banda Oriental consists of 24 Krupps, 5 Armstrongs, 4 mitrailleuses and four mountain guns, besides some 40 old cannon that would be certain to do more harm to those behind them than to the enemy in front.

Orders have also been given to raise each infantry battalion to 600 men, and a Bill making military service compulsory is expected to be run through the Chambers at a hand gallop. All this alarming warlike intelligence was supplemented late on Friday by most exaggerated rumours that Councillor Dantas would not come to the Plate at all, and that Banda Oriental would be at once occupied by 50,000 Brazilian troops. The news of Brazilian troops being in motion on their own frontier is, however, confirmed.

### LONDON LETTER.

(*From our own Correspondent*)

"JUMBO."

Some of us, who know after all but little of the English people, might imagine that the threatened conflict between the Houses of Lords and Commons, the French Treaty, Gen. Skobeleff, the Channel Tunnel, or Mr. Bradlaugh, was uppermost in the minds of this enlightened public. Not a bit of it. From end to end of Britain, including Canada and the States, nine-tenths of the average English-speaking world are thinking and talking of 'Jumbo.' The animal of that name is the elephant which has for seventeen years been one of the favourite objects of attention at the Regent's Park, Zoological Gardens. With meek and kindly eyes, and tenderly uplifted trunk, it has accepted buns and other offerings from the tiny hands of a whole generation of English children, many of whom have now grown to man's estate and can look back to the joyous days when they rode round the elephant house on Jumbo's back. It sounds to them a profanation to be suddenly informed that the dear and familiar pachyderm has been sold to Barnum! Fancy, the refinement of cruelty and degradation—to Barnum! The poor animal was only four years old and just four feet high, a mere infant, when it came to these shores and was comfortably housed in Regent's Park. It is now only 21 years old and not by any means of age; in fact, it is still a mere youth, and is not yet full grown. They calculate it should live, if all goes well, till it reaches its two hundredth year. It would consequently attain its majority in about another 20 years. It is already an enormous size even compared with its fellows in a wild state. For an animal in captivity its dimensions are unprecedented. It may probably grow another ten or twelve inches. The learned society who possess it are fearful that as it gets older, and at certain dreaded seasons of its existence, it will prove unmanageable and the premises of the society will not contain it. Hence the decision to sell Jumbo for a paltry two thousand pounds, a decision which may be said without exaggeration to have cast a gloom over the whole nation. The animal was not only attached to the country of its adoption, to its home in Regent's Park and to the daily sight of pleasant little English faces, not to speak of the buns, but like many other people it had a beloved companion of its own race, one Alice, as they call her, who shared his pains and pleasures in captivity. When the fatal day arrived on which it was necessary to break the news to Jumbo that he had been sold and had to embark for New York in the good ship Persian Monarch, he was delicately led to a nice new van, which had been prepared to drive him to the quay with as little delay as possible. But Jumbo was no fool. It was perhaps many years ago, but he had seen a van before and knew what it all meant. Neither threats nor persuasion would induce him to enter that van. He knew his own weight, some tons, and understood as well as any Land Leaguer the value of passive resistance. Not all the keepers, not all the whips, prods, chains or pulleys could stir him one inch. The idea of immediate embarkation was therefore abandoned, and subsequently another and apparently quite feasible plan of removal was attempted. It was thought it would do Jumbo no harm to walk him down to the docks and when wearied with his journey sling him on board, van and all. So the van was sent forward and Jumbo was led in triumph away from the familiar scene of the Zoological Gardens on his route to the Thames and to exile. He was scarcely out of the gates when a distant and piteous cry came from the elephant house: it was the voice and lament of Alice. Jumbo replied in notes more mournful

and more loud, and quietly bending his knees under him he squatted with an ominous air of determination in the middle of the roadway. The same threats, the same methods of persuasion were repeated, but budge he would not. At last one of the keepers said, 'we must go back.' Up jumped Jumbo in a trice. Tucking up his trunk he went back; and there he is in his house as heretofore, with Alice and the children and the buns The aid of our best mechanicians has been invoked, and some vehicle has been conceived so low in the wheels that it is thought Jumbo will not see it. Perhaps he may not. Evidently there are some things he does not see, and before the engine can be prepared the voice of public opinion bids fair to rise so high in condemnation of the Zoological Society that for very shame they will have to cancel their bargain with Barnum. There may be some difficulty, for if Jumbo was worth £2,000 last week, he is worth to Barnum £4,000 now, for the animal has since created a world-wide interest, and has been advertised to an extent fully doubling his value to the showman. The newspapers are filled with pathetic letters from all parts of the country protesting against the meanness of the Society in parting with an old favorite. 'What crime,' says one, 'has Jumbo committed that he should be sold in chains and transported to a foreign land?' A woman writes—'I can imagine with what grief the news that their patient, gentle old friend is to be sent away, has been received by hundreds of children and by their elders too.' Mr. Charles E. Horsfall, of Grassendale Priory, Liverpool, says he should be most pleased to give a subscription of £25 towards the re-purchase of Jumbo by the Society. Another man says—'No doubt the children would come forward in heaps with their mites to prevent Jumbo from being driven from his adopted home.' But the Zoological Society, through the medium of their superintendent, Mr. Bartlett, say it is not a question of sentiment or choice, it is a question of 'must;' and what must be must be. Who, they ask, is going to repay us, if in a year or two hence the patient old favourite, as you call him, turns obstreperous, invades the beer shops, tramples down the children, releases the lions and plays the very 'sub-commissioner' with our property? If Mr. Horsfall wishes to have the elephant at Grassendale Priory he is welcome, but out of the Gardens Jumbo must go by hook or by crook. The public, however, is not satisfied with this rather musty kind of excuse, and people say with justice that if Mr. Barnum, even in the world of eventualities can manage Jumbo, the Society ought, and that Mr. Bartlett might, and, in fact, must. The latest barbarity reported is that the learned Society, which after modern methods would treat the finer and holiest affections as questions of anatomy, are about to use Alice to inveigle Jumbo into the van and exile.

I find at the last moment that my estimate of the enhanced value of the elephant to Mr. Barnum was timid and weak in the extreme. That gentleman states that he would not take one hundred thousand pounds to cancel his bargain with the Zoological Society.

The following appears in the *Daily Telegraph* of this morning:—

In reply to an inquiry addressed to Mr Barnum at New York representing the anxiety of the English children for the retention of Jumbo in this country, we have received the following characteristic reply:

New York, Thursday.

My compliments to Editor of *Daily Telegraph* and British nation. Fifty millions of American citizens anxiously awaiting Jumbo's arrival. My forty years invaluable practice of exhibiting best that money can procure makes Jumbo's presence here imperative. Hundred thousand pounds would be no inducement to cancel purchase. My largest tent seats thirty thousand persons, and is filled twice each day. It contains four rings, in three of which three full circus companies give different performances simultaneously. In the large outer ring, or racing track, the Roman Hippodrome is exhibited. In two other immense connecting tents my colossal zoological collection and museum are shown. In December next I visit Australia in person, with Jumbo and my entire mammoth combination of seven shows, *via* California, thence through Suez Canal. Following summer to London. I shall then exhibit in every prominent city in Great Britain. May afterwards return Jumbo to the Zoological Gardens.—Wishing long life and prosperity to the British nation, the *Daily Telegraph*, and Jumbo, I am, the public's obedient servant.

*P. T. Barnum,*

## EDITOR'S TABLE.

Yesterday was a genuine mail day, owing to the Neva and Villarino sailing for opposite points of the compass. The mole, the Central station and the Boca were all scenes of that sweetness which the Monarch of Letters assigns to parting. Such embracing, and hand shaking, and patting on the back, and sobbing, and sniffling and smiling sadly, we ne'er did see before. It is a comfort that they are all well over it by this time. The crowd of passengers for the Neva was so great that it was feared that steam tenders for them all and their friends would run short, but the agent was equal to the emergency, and all were embarked comfortably.

The storm at 2 a. m yesterday morning was a highly respectable one, but there was not enough rain. Our weather prophet predicts more, but omits to say when. Our wheezy barometer could do as much as this.

There is a prodigious fandango in the opposition papers about the 'revolution' in Corrientes. As the patriots on both sides began business by cutting the wires, no particulars are known, but the affair will probably turn out a mere flash in the pan, like most of the rows in that quarter. The Government has ordered two vessels of the squadron to run up and see what it is all about.

Montevideo appears to be pretty near boiling-over pitch now, to judge by the telegrams. The most stunning rumours are flying about like hail—50,000 Brazilian troops over the frontier, and Doomsday at hand. The Volpi affair is now eclipsed by the Paso Hondo imbroglio, and Spain seems to have no chance of edging in a word for the 'manes' of the late Mr Sanchez Caballero, till Italy and Brazil get their 'little bill' paid. As for France's claim for an official kicking administered to a Frenchman, it seems too trifling to be mentioned beside the others.

The Exhibition had rat her a forlorn look yesterday from morn till night, and the ticket-takers had plenty of time to read the latest bad translations of still worse French novels. Up to the present the Clerk of the Weather has behaved very well to the Exhibition since that little escapade of his in November, which we have, however, no wish to throw in his teeth unnecessarily.

Our Exhibition chapter, a very interesting one, is in our Supplement to-day.

There is a slight difference of opinion between the Municipality and the Western Railway as to which of the two bodies should pay for an improved 'basura' service on the railway. The cost is estimated at $700,000, and the Lord Mayor writes to President Jorge to say that in the coming session of Congress every penny the Municipality owes will be provided for, and in the mean while he hopes the rails way will oblige him by rubbing up the 'basura' service a little.

There has been a jail delivery at Mercedes of several gentlemen strongly suspected of a 'desgracia' (wilful murder) but who, we suppose, now leave the jail without a stain on their character. Julius Cesar!

The Rio Janeiro Fire Brigade, or rather part of them, have arrived, and add to the attractions of their country's section in the Exhibition.

A most painful suicide was added to the recent terribly long list of this crime on Monday. The victim was Mrs Rosas de Serantes, a married lady. She poisoned herself, and only confessed the cause in strict confidence to a near female relative, before she expired. She was only 23 years of age.

There will be probably a grand Sacred Concert at the Exhibition to-morrow night, Rossini's immortal Stabat Mater being in the programme.

The Royal London Society for the Prevention of Cruelty to Animals and the sister institution in New York have written to the parody on both here, to congratulate it and stimulate it. We know nothing about the congratulations, but can vouch for the stimulant being sadly required, and we hope it will have due effect.

We have much pleasure in saluting a new colleague, *El Nuevo Figaro*, a musical weekly journal edited by one of the best musical critics in the country; we wish him long life and prosperity.

We are delighted to see that in spite of the unconquerable tendency to 'seriedad' with which most of our Argentine colleagues are afflicted, a dim sense of humour flickers up now and then. We see some of them now poking sly fun at that Berlin wool portrait of President Roca in the Exhibition. H E ought to sue whoever worked it for heavy damages.

We perceive that the returns of the Department of Interior are now published in the same form as those of the British Hospital, which is a vast improvement on the old system. Those for the last fortnight in March run so: Patients—beg pardon—'espedientes' entered 400: despatched (equivalent to cured or killed in the Hospital) 182; still in the House, or rather Department, 540.

### STOP PRESS

April 5th, 8 p.m.

It is surmised that affairs in Corrientes have assumed a more serious aspect than was generally supposed.

Cabinet meeting this afternoon lasted over three hours, and the result of it is that President Roca with Minister Wilde and Secretary Zorilla will leave to-night at 9 p.m. in the gunboat Maipu for Corrientes.

By decree, signed this evening, the Vice-President of the Republic Sr. Madero, will replace the President during his absence.

## ON 'CHANGE.

April 5th

Patacons ..... 25.—
Cedulas A ..... 100½

National Bank Shares.. 113½

The Bolsa looked "like a banquet hall deserted" to-day, so many members were absent up and down the river, in the camp, or elsewhere. The storm this morning knocked several intended trips and pic-nics on the head, otherwise the hall to-day would have been even more dreary than it was.

The business in gold is reduced to the smallest span, one miserable sale of 5,000 pats at 5 cents premium being alone in its glory on the black board.

In Cedulas the business was not quite so insignificant, and the tone of the market was much firmer. Series A are firm at ½ premium, which is an advance of ½ on yesterday's price; 1,500 sold. Series B show a still more decided improvement, and 16,500 were sold at 84½ to 85, but for end of month they are not quite so erect in the back, 84½ being accepted for a lot of 25,000 for 30th. The let up in this stock is attributed to some parties having very superior information to effect that the Provincial Bank is about to pass the 4 million catch holds for mortgages over to the Mortgage Bank. This is merely carrying out the new law passed by the Chambers.

There was evidently more grit to-day in the bulls of National Bank shares and the market reflected their very roseate aspirations. It opened with a smile at 113½ for cash, but when a too eager buyer had 'secured' his lot at 114, the price gracefully dropped down to the opening figure, For Monday next a paltry lot of 50 shares changed hands at 113½. For end of month most of the business was done at steadily advancing prices, the closing quotation being the highest; 2,550 shares were sold for the 30th 113½-½-114. Total sales of day 2,911 shares The market is very firm and the bulls are very sanguine. The story now current is that the Syndicate have not sold any shares, but mean to cling to them like grim death till they get their price. Mr Nocetti the First, National Bank share King, is booked to leave for Europe on the 8th inst; also Mr P Olivera. We wish them a pleasant trip and hope they will not be tempted to place any of their hard earned profits in 'Alpines' or any other luscious investments of the kind, of which there are so many on European Bourses.

There was a painful rumour afloat on 'Change to-day to the effect that Mr Schwind, partner in the leading house of Ashworth & Co., had been lost on the voyage home to England from Rio in the R.M.S. Douro. We hope this sad report may be contradicted.

Advices were received this morning from Rosario stating that there is all but unanimity in the Santa Fe Chambers as to opening a branch of the Hypothecary Bank there, and the measure will be passed by a sweeping majority. The concession, it is expected, will be for 15 years. All the leading men in Santa Fe and Rosario are in favour of the measure, as the new bank will give an immense impetus to the value of landed property, which is already so steadily advancing under the slow, sure and steady pressure of that greatest of all the levers employed by Progress in new countries —Immigration.

Mr Mathew Forrester had an interview with the National Finance Minister yesterday and presented him with the petition of the English holders of Argentine Treasury Bonds in reference to the forced amortization recently decreed. We have not seen the petition, but understand that, in case the Minister insists on the right of Government to force an amortization at par, it proposes a compromise between the views of the holders and the Government's.

The sales at the ring were as follows:—

The leading brokers report money easier in the market, and the object of the private banks in increasing their rates in account current causes much surprise and is much discussed, as the general tendency of the money market, at least for the moment, is towards rather easier rates.

The fizz caused by the announcement that Baring had launched the 20,000,000 loan has completely died out, but bankers and merchants are decidedly anxious to know what the next move is to be. There are no indications whatever of shipments of gold on account of the loan, the original reason for which seems to have passed out of sight and mind in the Government House.

The name of the well-known importer, Mr. Rodriguez, was inadvertently omitted in our list of passengers by Neva in this column. He has left with his family for a three years' tour in Europe.

The partial disappointment in the linseed crop this year has not damped the ardour of growers for next season. Large sales of linseed seed, reserved for the purpose, are reported at high prices. Those who know most about what has gone on in this staple say there will be an immense increase in the sowing this year.

It was said on 'Change towards the closing hour that the Corrientes runnus is more serious than at first supposed, and may possibly require intervention. President Roca held a long Cabinet Council on the matter to-day, and an Interventor was selected, in case the step prove necessary. The Government is determined to act with the utmost vigor in the matter.

At afterhours the Nat. Bank bulls stiffened their backs and gave prices another lift, to 114½; nevertheless the spring in the heel of the shares was nothing very remarkable, but it put a good face on them for the holidays. In other securities nothing whatever fresh.

Nothing fresh to report in exchange or discount rates, both almost unchanged.

Importers report a better feeling amongst the camp dealers and more money coming in from that quarter, but the river dealers are still slow in remittances, as there is little or no revival as yet up there, but it is expected soon.

Advices from Rosario say that there is a large quantity of wheat there ready for shipment to Buenos Aires.

The loss of the Spes Nostro of Newcastle is announced. She was bound from that port to this with a cargo of 42,000 dozen of beer bottles for the well known brewers of this city, Messrs Hammer & Peltzer. The wreck took place on the coast of England, and all the bottles went to the bottom. The ship and her brittle cargo were fully insured.

The news from Sta. Fe and Cordoba is not relished by cattle men who have stock in either province. In the latter there has been no rain to speak of for nearly nine months, and the drought is beginning to tell on the camps and stock. In Sta. Fe matters are more serious, as "blood murrain" has broken out amongst the cattle, and several estancieros have lost heavily, Mr Dickenson as many as 800 head; of 52 draught oxen he lost all but three. The plague is also felt at Las Rosas, Calfornia, Victoria and other estancias. The Rural Society at Rosario was applied to by several estancieros, whose herds are yet untouched, to take some action in the matter, and urge Government to at once isolate the infected districts, lest the plague should spread and bring blue ruin on all the cattle farmers of the province, but no steps whatever have yet been taken by either the Society or the Government, and the only chance is that the change to cooler weather may stop the plague. In Europe the Governments do not hesitate an instant to isolate whole counties and departments when cattle plague breaks out, but here even the prospect of blue ruin to the breeders is powerless to move a Provincial Government to action.

Parties up from Montevideo for the holidays say that matters there may now take any turn, and it is impossible to predict the result. The calling out of troops in the North is looked on with much distrust. Between the approach of Easter and the Volpi row business suffers. Stocks have given way on Change, but not so much as many expected; the last wools of the clip are now coming in, but there is very little doing in produce of any kind, even the wool and hide men having yielded to the Volpimania of the moment. Large arrivals of flour are reported and price looking down. Same may be said of oranges, the Rio Parana having brought down 200,000 from Asuncion.

A National Bank bull called attention on Change to a sharp rise in the price of wax matches. It appears that the consumption is increasing, and as the local manufacture of the article, which was apparently so flourishing here a year ago, has completely collapsed (take note Industrial Club) under European competition, there is a corner in 'foforos', and the wholesale price is rising.

Merchants were late on Change to-day owing to the double mail, the R.M.S. Neva for Europe and the Republican mail steamer Villarino for Patagones. There were so many passengers going in both that it was a stiff push to get through all the letter-writing and leave-taking in time. The Villarino cleared at 9 a.m from the Boca, true to time, Captain Spur being a true Briton in respect for punctuality. Several estancieros and others from the South returned in her; the Paymaster of the troops on the frontier took a big portman teau full of paper dollars. Mr William F Mulhall also left for the Rio Negro and San Blas. "The wild freshness of morning" made many suppose that the Villarino would not sail till to-morrow, but the state of the weather makes little difference to such a splendid seaboat under such a Commander. At noon the sun shone out and made things pleasant for the Neva's passengers, all but the state of the river, which continued very rough, and many who purposed accompanying their friends to the Outer Roads prudently stayed on shore.

The Minister of the Interior was applied to yesterday by Mr John Bastiani of Mendoza for the pecuniary premium awarded by Act of Congress to all who have over 3,000 mulberry trees in cultivation. This shows a move in the right direction in Mendoza, a province specially adapted for silk culture.

The reported extensive forgery of Chilian Condors made 'cambistas' nervous to-day. It is said that over 3,000 pats of this counterfeit coin has been foisted on several exchange shops. The police have made some arrests, but the head of the gang of coiners is so far "non est".

The flare-up in Corrientes was much spoken of on 'Change and some importance attached to the Plata ironclad and torpedo boat Maipu being under orders for 'aguas arriba'. Revolution is, unhappily, the normal state of Corrientes, but the province is not weighty enough for its local squabbles to have any effect whatever on the onward march of the Republic.

The mails from Rio bring the following news:—

Exchange—
The Bank rate of 20½ was maintained until the 21st inst., when the Banco Commercial raised its rate to 20¾, the other banks accompanying. This continued to be the nominal rate for bank paper, but it is known that business has been done at 21d. The market is firm.

Private paper has still been scarce, but the demand has been very slack, and some business has been done at 21½.

Should the entries of coffee increase, as may now be expected, we shall probably see more movement. Transactions in Bank paper for this mail are very moderate in amount, takers having held back in hope of better rates. Money is becoming easier, and a demand for remittances ought soon to spring up.

Money—
Discounts have been easy at our last quotations. The season in Pernambuco may not fairly be considered over and a large return of paper currency from thence cannot much longer be delayed.

Our railways recommenced working on Monday last, but land slips have again interrupted traffic for a day or two.

The weather is still far from settled, and entries of coffee this month have been very small.

In America no proportionated rise has taken place, as an equivalent for the strong advices sent per cable from here, and 1st Boa Rio sells at 10 to 10¼ cents per lb.

Europe quiet at 40/ to 43/ per cwt.

Exchange here keeps rising, and coffee is already costing 500 reis per arroba advance, saddled still further by 3 to 4 o/o dearer exchange.

Gold has ruled quiet, and in stocks and shares the business has also been small and without animation.

GILLARD'S SHEEP DIP
NON-POISONOUS
GILLARD'S
DIP
TRADE MARK
LIVERPOOL
PREVENTS AND CURES SCAB
This Dip is most carefully prepared by the latest improved methods and can be used with

Supplied to the Prince of Wales's Farm at
SANDRINGHAM
TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts, I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock."
From Messrs. Patrick Mahon, junr., Cirlaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

HOP BITTERS
ARE
THE PUREST AND BEST
MEDICINE EVER MADE.
THEY ARE COMPOUNDED FROM
Hops, Buchu, Mandrake and Dandelion.
"The Oldest, Best, most Renowned, and Valuable Medicines in the World, and in addition contain all the best and most effective curative properties of all other bitters, being the greatest Liver Regulator, BLOOD PURIFIER and the and health restoring agent on earth."
They Give New Life and Vigor to the Aged and Infirm.
"To Clergymen, Lawyers, Literary Men, Ladies, and all those whose sedentary employments cause irregularities of the Blood, Stomach, Bowels, or Kidneys, or who require an Appetizer, Tonic, and mild Stimulant, these Bitters are invaluable, being highly curative, tonic, and stimulating, without being intoxicating."
"No matter what your feelings or symptoms are, or what the disease or ailment is, use Hop Bitters. Don't wait until you are sick, but if you only feel bad or miserable, use the Bitters at once. It may save your life. Hundreds have been saved by so doing as a trifling cost."
Ask your Druggist or Physician.
"Do not suffer yourself or let your friends suffer, but use and urge them to use Hop Bitters."
"Remember, Hop Bitters is no vile, drugged drunken nostrum, but the purest and best Medicine ever made, and no person or family should be without it."

La brillante situacion de este terreno nos evita toda recomendacion; solo haremos presente, que con la Exposicion Continental en la plaza 11 de Setiembre todo aquel barrio ha tomado un gran incremento, a tal estremo que ha traido consigo el establecimiento del gran mercado Rivadavia que dista tres cuadras de esta propiedad.

El movimiento comercial que reina en aquel paraje, trae consigo un aumento de poblacion y de consiguiente el aumento de valor en la propiedad.

Creemos pues dificil que se encuentre por allí un terreno en iguales condiciones como este, sobre todo si se toma en consideracion el precio de 100,000 m|c que se ha fijado para su venta.

## THE EXHIBITION

AMERICAN AND BRITISH SECTIONS.

The display of stoves and ranges made by Mr W R Cassels, agent for Messrs Abendroth Brothers of New York is one of the most attractive and interesting in the English section, and we fully concur in the judgment we heard pronounced on all sides that they are the finest stoves ever seen in Buenos Aires.

The only gold medal awarded for kitchen and heating stoves at the Paris Exhibition 1878, was taken by this firm, and in the late Australian Exhibition, besides a gold medal, they were awarded the special prize which was only conceded to articles of extraordinary merit.

The 22 stoves and ranges exhibited by Mr Cassels are well deserving the careful attention of all interested in the Culinary department of their homes, and who is not? The comfort and usefulness of a good cooking stove in the house is paramount, and contributes more largely to the health and happiness of the family and to the good tempers and willingness of servants than is generally thought. The splendid 'America' range which stands in the centre of this exhibit, set in an imitation brick hearth and chimney piece, with all its conveniences and facilities for the various cooking operations in a large family became quite a centre of attraction on the night of the opening day, and we understand is already reserved for one of our wealthy estancieros whose lady was unable to resist its attractions.

Some 5 or 6 sizes and styles of the celebrated 'Uncle Sam' ranges, with the beautiful ornamentations in cast iron are exhibited. The prices of these are from 800 to 2000 dollars m/c, and we can well understand that it is only from their being turned out in very large numbers that they can be offered in Buenos Aires at such low prices.

The smoothness and perfection of the castings on these stoves was the admiration of all technical men; it would hardly seem possible to turn out from the sand, such perfect plates without a flaw or defect, and the quality of the iron employed must be, as is claimed, only first class.

We have not space to speak of the numerous other small and large cooking stoves and the elegant heating stoves and fire places comprised in this Exhibition. Evidently no one would be at a loss to pick out just what would suit both his pocket and his wants.

Mr Cassels is most anxious to 'fire up' one or two of his stoves so as to demonstrate practically what they will do in the way of baking and boiling and in economizing fuel, but permission from the 'Comision' is not forthcoming so far, and visitors must be contented by studying them as they stand; they can however, be freely handled and examined from top to bottom, inside and out. (Police take notice).

*Articles exhibited by J Mohr Bell & Co*

'ALPHA' GAS MACHINE

For the production of lighting and motive gas by means of Gasoline; the machine exhibited makes sufficient gas for 25 to 30 lights, 1000 ft of gas costing about 45 m/c according to the price of gasoline. These machines are specially adapted for hotels, quintas, workshops and private houses where coal gas cannot be obtained.

BISCHOP'S GAS ENGINE

Two man power, works with either coal gas or gas manufactured by the 'Alpha' machine, consumes 21 ft. of gas per hour at a cost of $2 5 rls for coal gas and 7 rls for gas from the Alpha machine per hour.

LARGE SHOW CASE

Containing samples of the various classes of sheepshears, edge tools for working in wood and iron, and other tools as well as samples of tool steel in process of manufacture, all from the factory of Messrs Ward & Payne of Sheffield. These unrivalled exhibits demoustrate to what perfection the art of tool making has arrived, and the inspection of the sheepshears proves that no hint from the active users of them is allowed to pass by the manufacturers, without a trial; there are shears adapted for general use, others made especially for the River Plate, others again for the Australian market, whilst shears for fine sheep differ considerably from those made for ordinary use; there are shears with a double bow, others with an equalizing spring, and again others with the blade inclined to the handle. We recommend our sheepfarming friends to study this case with special care, it will repay any attention they may bestow upon it. Messrs Ward & Payne were awarded the only Gold Medal for sheepshears and Edge tools at the Melbourne Exhibition of 1880.

SELF ACTING SLIDING, SURFACING AND SCREW CUTTING GAP LATHE

With 6 inch. centres and 6 ft. bed, to slide and surface by backshaft with compound slide rest, steady rest and full set of 22 change wheels with index plate, 3 face plates and overhead motion. This machine turns out superior work automatically or by hand, and is strongly made and well finished, makers Scott Bros, of Halifax, England.

IMPROVED VERTICAL DRILLING MACHINE.

By same makers. This machine will admit work up to 2 ft. diameter and has a 6 inch self acting feed motion with all the latest improvement.

IMPROVED SINGLE STANDARD STEAM HAMMER.

From the same workshops. This hammer will frize bars up to 4 inch. in diameter and has self acting motion as well as by haud, diameter of cylinder 4½ inches, of piston rod 2⅜ inches with a stroke of 9 inches.

GAS METER.

Manufactured by M & B Cowan of Edinburgh. This meter is the ordinary wet one with improvements by Warner & Cowan.

SELF ACTING WET GAS METER

By the same makers, exhibiting their patent arrangement for securing accuracy of measurement under varying condition of water level. This meter was specially designed for use in hot countries to prevent the necessity of constant visits for the purpose of filling up the loss of water caused by evaporation. The advantages of this meter will be readily appreciated by the Gas Engineers of Buenos Aires for whom the water can is almost as necessary as the meter itself.

DRY GAS METER

By the same makers, exhibiting the most recent improvements in these meters.

THREE MODELS OF DRUMS

For use in wet meters and

MODEL OF THE DIAPHRAGMS

Used in dry meters

LARGE STAND

Containing samples of manufacturers from

THE KIRKSTALL FORGE Co. OF LEEDS

Consisting of

13 PATENT-ROLLED SHAFTS

All 20 ft long from half in. to five inches in diameter, also shorter pieces up to 7 in. diameter. This patent rolled shafting is round and straight and has a dark blue smooth skin, it is suitable for line shafting and counter shafts, arbors and spindles in all kinds of machines. The process of manufacture, it is claimed, increases the torsional strength fully 20 o/o and the flexional strength 33 o/o while it is much cheaper than turned shafting. On the same stand a 3 inch bar is shown with a turned boss to slide up and down for the purpose of showing the truth and straightness of the shaft.

16 PATENT PICTIMAL COUPLINGS

Butler's patent for use with the rolled shafting above described. These couplings adapt themselves to any diversity there may be in shafts and are truly concentric, they can also be used as pulleys. They are cheap, simple and effective.

SAMPLE RAILWAY AXLE

Tied in a knot to exhibit the quality of the iron, also

67 PIECES

Of iron, twisted, broken, bored and hammered into every conceivable shape for the purpose of showing the various qualities of iron manufactured by this Company. For our friends in the engineering line this exhibit we feel sure will prove one of the most interesting in the Exhibition.

SHOW CASE

Containing 110 samples of tools of various kinds as well as garden and agricultural implements.

MODEL OF LIVESEY'S PATENT PERMANENT WAY

With turn tables and curvings complete, also different models of various kinds of goods waggons suitable for his system of light railways.

SAMPLE OF PERMANENT WAY

Livesey's patent, natural size, such as is used on the Central Argentine and Great Southern of B. Aires.

SAMPLE OF TRAMWAY RAILS

By the same patentee, natural size in use by the City Tramway of B. Aires.

SAMPLE OF LIGHT PERMANENT WAY

Inventor Livesey, natural size, especially designed for light, narrow-gauge Railways.

TWO SAMPLES OF PORTABLE PERMANENT WAY

By the same. natural size exhibiting the mode of joining the rails, where being laid. This system seems specially adapted for situations when lines of a temporary character are desirable whilst a little ballasting will convert the temporary into a permanent way of a durable character,

On the left hand side of the British and American Sections, on entering from the Brazilian, a small space is occupied by H H Shipman of New York, who exhibits 3 fret work or scroll machines, 2 for the use of amateurs and 1 for carpenters. The work exhibited (mostly useful and ornamental nic-nacs for household adornment) is all done by amateurs with machines similar to those exhibited, the piece calling for most remark being the Lord's Prayer, in English, done by one of the Agents here. In order to complete this 1028 pieces had to be cut out of a space of 15x18 inches. The Agents tell us that the price of these machines is so reasonable that an amateur of the most moderate means can obtain one, the result being evidently satisfactory.

Carlow Lay College
AND
ST. MARY'S PREPARATORY SCHOOL
Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.
Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.
Matron and Professor of French and Music—Miss Finneran.
English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such ago, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender ye require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.
Pension, exclusive of extras, £30.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c, at half the usual cost, and in much less time. The hens had better be 'cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*

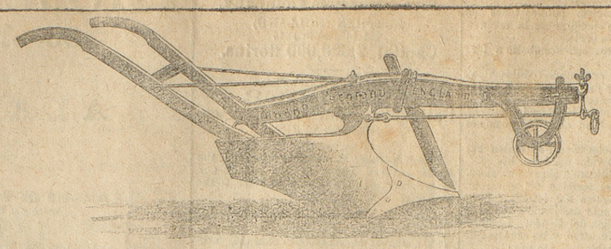
HOWARD'S CELEBRATED PLOUGHS



The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

ESTABLISHED 1799.

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d.; boxes, 6d. and 1s. each. (a)
